

The Educators' Atari Club

T.E.A.C. CATALOG WINTER 1991

A PUBLIC DOMAIN
DISK LIBRARY
FOR THE ATARI
COMPUTER

ABOUT T.E.A.C. PRICES

We are a non-profit organization. We sell our disks at the least expensive price we can. Basically, our 8-bit disks sell for \$3.00 per single-sided disk. Our ST disks are sold for \$4 each. These amounts cover the expense of purchasing a blank disk, its cover, and printing a label, ink, etc.

If a disk is two-sided, we charge \$4.00. If we include printed instructions we add an additional \$2.00 to cover duplication charges, unless otherwise noted.

If we have to mail anything, we charge a flat \$5 fee for shipping and handling. This pays for shipping materials and postage. That means you may over-pay on a small order, but you make up for it on a large one. It evens out for us.

If you join TEAC it costs you \$25 a year. This pays for postage for our TEAC Newsletter which is published and mailed six times a year. It also includes a year's subscription to Atari Interface Magazine, an \$18 value. We lose a little on this, but hopefully the sale of disks offsets this loss. The TEAC Newsletter and Atari Interface Magazine contain reviews, software and hardware news, and other information on Atari educational software.

Our club is open to anybody with an interest in the Atari, although we specialize mainly in educational uses of the Atari.

THE EDUCATORS' ATARI CLUB

Post Office Box 1024

Laytonville, California 95454

TEACDISK LIBRARY

TEACDISKS are programmed for Atari 8-bit computers and placed on DOS 2.0 disks with autorun menus. The decision to use the older DOS 2.0 operating system and the 8-bit format was based on the belief that most classroom teachers have a mixture of equipment in use, some of which is not compatible with newer DOS operating systems.

All TEACDISK programs are from the public domain and have been revised after classroom use and testing. They should operate reliably if not removed from their original disk. Each program is tied into the TEACDISK menu and protected against examination or change by the casual user. However, whole disks can easily be copied using any sector copy program. We recommend making back-up copies and sharing these programs freely with others.

Challenge	Language	Grades 7-12

TEACDISK #38 - \$3.00

"The Noisy Giant," an animated story. (Micro Tales #2)

Grades 4-6

TEACDISK #39 - \$4.00 (two-sided)

"The ABC's of CPR," a two-sided graphic-packed disk tutorial on CPR techniques.

Grades 7-12

TEACDISK #40 - \$3.00

"AUTOCROSTICS" runs from TurboBasic XL and contains six fascinating word puzzles. The puzzles range from easy to difficult, but these are not "quickies," and are definitely challenging to high school students and adults. Some computing knowledge is necessary to run this program, since it is not an autorun disk. TurboBasic XL loads in on autorun, then the main program must be loaded using a RUN "D:PLAYER.TBX" command line. After that everything else autoloads.

Grades 9-12

TEACDISK #41 - \$3.00

Periodic Table of the Elements	Science	Grades 7-12
The Function Machine	Mathematics	Grades 5-9
Making Change	Mathematics	Grades 3-8
Barnyard Breakin	Reading	Grades 2-5
Learning the Alphabet	Reading Readiness	Ages 3-5
Clock	Telling Time	Grades 2-6
Hangman 3	Language	Grades 2-6
Spell It	Language	Grades 3-8
Bond Broker	Business Simulation	Grades 6-12
Biorhythm Analysis	Science	Grades 9-12
Find the Letters	Reading Readiness	Ages 3-5

TEACDISK #42 - \$3.00

WORD BUILDER is a well written vocabulary development program with word levels for grades 2 through 8. It also has a song trivia file and words of four letters in length file.

Grades 2-8

TEACDISK #43 - \$4.00 (two-sided)

CALORIE AND NUTRITION GUIDE analyzes what you eat, etc. Includes complete documentation on back of disk.

Grades 7-12

TEACDISK #44 - \$3.00

MathPack	Mathematics	Grades 7-12
Chemstry	Science	Grades 7-12
Marooned	Mathematics	Grades 4-12
WordHunt	Language	Grades 5-12
Nature	Live Sciences	Grades 5-12
Reverse	Problem Solving	Grades 6-12
Multiplication Bingo	Mathematics	Grades 4- 7
Mathman	Mathematics	Grades 4- 7
Energy Czar	Social Sciences	Grades 7-12
Kevin's Multiplication	Mathematics	Grades 6-12
Practice Program		

TEACDISK #45 - \$3.00

Math Race	Mathematics	Grades 2 - 7
Convert	Science/Mathematics	Grades 2 -12
MoreLess	Mathematics	Grades K - 6
Big Number	English/Mathematics	Grades 1- 12
Memory Match	General	Grades K-12
Math Fun	Mathematics	Grades 2 - 6
Remainder Game	Mathematics	Grades 8 -12
Word Search	Language	Grades 7 -12

TEACDISK #46 - \$3.00

World Capitals	Social Sciences	Grades 5 and up
Scripture Chase	Bible Studies	Grades 5 and up
"Hat in the Ring" Presidential Election Game	Social Sciences	Grades 5 and up
Synonyms - Antonyms	Language Arts	Grades 3 - 6
Speed reading	Language Arts	Grades 3 - 5
Picture These ABCs	Letter Recognition	Primary
Espanol Flashcards	Math/Spanish	Grades 3 and up
German Flashcards	Math/German	Grades 3 and up
Shoot 'Em Up Math	Mathematics	Grades 4 and up
Math Practice	Mathematics	Grades 3 - 6

TEACDISK #47 - \$3.00

Note Master	Music	Grades 1 and up
Code Master	Problem Solving	Grades 3 and up
Subtraction Practice Program	Mathematics	Grades 2 and up
Concentration	Memory	Grades 1 and up
Addition Practice Program	Mathematics	Grades 2 and up
Count Those Letters	Letter Recognition	Primary
Simon	Memory Game	All ages
Tune In	Memory Game	All ages
Haiku	Poetry Generator	Grades 2 and up
Sticks Game	Problem Solving	Grades 4 and up
The Sun	Science	Grades 4 and up
Math Wizard	Mathematics	Grades 4 and up
Missle Math	Mathematics	Grades 3 and up

TEACDISK #48 - 3.00

A five lesson exploration of French. Includes ER verbs, IR verbs, RE verbs, and "French Flashcards." Grades 5 and up

TEACDISK #49 - \$3.00

Geometric Area	Mathematics	Grades 7 and up
Multiplying Fractions	Mathematics	Grades 7 and up
Math Facts	Mathematics	Grades 3 and up
Clock	Telling Time	Primary Grades
The Reading Program	Comprehension	Intermediate Grades
Dragon Breath	Vocabulary	Grades 2 - 4
Joystick	Vocabulary	Intermediate Grades
Spanish Drill	Spanish	Grades 7 and up

TEAC/SUNBURST COLLECTION

These excellent educational disks were donated to our library by Sunburst Communications. They were produced and sold commercially and were the winners of many educational software awards. They are copy protected and can't be copied using normal copy methods.

We also will have the original teacher's guides available for many of them, although you can use most of the programs without them. These guides are usually 20 plus pages long and are full of suggestions on how to best use the programs. We will provide a copy of them for an additional reproduction fee of \$10. You may reproduce the documents as many times as you like. The following is the list of new award winning SUNBURST/TEAC titles available and a brief description of each one. We highly recommend them for the classroom teacher.

THE POND (Problem Solving) - \$4.00

Helps your children learn about experimentation. In playing the game, they gather information, make assumptions, and test their assumptions. Discovering a pattern through the lily pads develops their ability to recognize patterns, plan ahead and reason visually. Winner of the "Best Microcomputer Software of the Year - 1983."

Grades 2 - adult

THE FACTORY (Problem Solving) - \$4.00

Playing helps your children learn how to break down a problem into its parts and then solve each part step-by-step. Designing an assembly line to solve the problem develops their ability to plan ahead and to reason visually. Winner of the "Best Microcomputer Software of the Year - 1983", and the "Hall of Fame" Award.

Grades 4 - adult

M-SS-NG L-NKS (Language)- \$4.00

Improves reading, writing, spelling, grammar, and comprehension. Exposes them to the classics of children's literature. Requires the student to reconstruct the passages by filling in the missing letters.

Grades 5 - adult

TEASERS BYTOBBS (Mathematics) - \$4.00

Math puzzles develop thinking skills. Practice arithmetic skills while working through puzzles, help students learn how to break down a problem into its component parts, select the part to solve first, and then find the solution. Winner of the "Best Microcomputer Software of the Year - 1983," "Hall of Fame Award," and "Atari Star Award for Best Educational Courseware - Spring 1983."

Grades 8 - adult

WALLY'S WORD WORKS (Language) - \$8.00

Wally, a bouncing wallaby, helps students identify the parts of speech in a series of sentences. Students score by "hopping" Wally over words, picking them up and dropping them into pockets that represent the nine major parts of speech. Wally's Word Works comes with one main Teacher Disk and a Student Data Disk. Originally there was an intermediate and high school disk also. (two disks)

Grades 4 - 6

SPACE WASTE RACE (Early Learning)- \$4.00

An animated storybook with music, sound effects, and learning activities. Grades K - 2
Helps familiarize children with numbers and letters.

THE INCREDIBLE LABORATORY (Problem Solving) - \$4.00

This popular problem solving program places the student in the role of creating monsters in a laboratory. They must select chemicals to create each part of the monster. Students must record the results of their experiments, change variables, then determine how to proceed. Winner of the National Software Contest - 1983. Grades 3 - adult

GETTING READY TO READ AND ADD (Primary) - \$4.00

Designed to give children practice in discriminating shapes, upper-and lower-case alphabet letters, and numbers. Correct response rewarded with colorful graphics, lively animation, and sound. Also called READY, SET... Grades K - 2

VOWEL ANIMATIONS (language) - \$4.00

Two words are presented on the screen. The student must choose, from three other words, the one that has the same vowel sound as the first two. Grades K - 3

SURVIVAL MATH (Mathematics) - \$8.00

A set of four simulations designed to motivate students to become actively involved in mathematical computations: Travel Agent Contest, Smart Shopper Marathon, Hot Dog Stand, and Foreman's Assistant. (two disks) Grades 7 - 12

BEST OF TEAC DISKS

These disks are collections of some of our best programs grouped together by subject area. They are all public domain programs from our regular TEACDISK library.

NOTE: If you own an ATARI 1200XL please order the special BEST OF TEAC version made for the 1200XL. The 1200XL needs a different version than all other Atari computers.

BEST OF TEAC - MATHEMATICS #1 - \$3.00

Magic Blackboard, Minute Math, Math Flash Cards, Turtle Math, Math Tic-Tac-Toe, Multiply, Dice Math, Math Bingo and Math Seven.

BEST OF TEAC - LANGUAGE #1 - \$3.00

Quote Hangman, Spell Blaster, Verb Synonyms, Spelling Bee, Spellbound, Scramble, Hangman and Noun Odd-Man Out

BEST OF TEAC - PRIMARY PROGRAMS #1 - \$3.00

Alphabet Train, Old McDonald's Farm, Dice Math, Forklift, Domino Math, Spell Big, Turtle Mathematics and Counting.

BEST OF TEAC - PRIMARY PROGRAMS #2 - \$3.00

Numbers, AlphaRun, What Is It?, Squares, Keyfind, Time Test, Flash and Spell, and Alphabet and Number Drill.

BEST OF TEAC - PROBLEM SOLVING #1 - \$3.00

Electric Company, Bridge Builder, Lemonade Stand, Brain Teasers, Hunt the Wumpus and Trivia Time.

BEST OF TEAC - PROBLEM SOLVING #2 - \$3.00

Cannibals and Missionaries, Atari Atomic Power Plant, Smokey and the Bandit and Magic Square.

BEST OF TEAC - SOCIAL STUDIES #1 - \$3.00

Oregon Trail, Hammurabi, Flags, World Capitals, Capitals of the Americas, States and Capitals, Geography Quiz and Name the Presidents.

BEST OF TEAC - SCIENCE #1 - \$3.00

Light, Hardness Scale of Minerals, Dinosaur One, Dinosaur Two, Planets, Plants, Science Quiz and Who's Who of Space Travel.

TEACHER UTILITY PROGRAMS

TEXTPRO - \$4.00 (two-sided)

Similar to SpeedScript, but with more features, including on-screen help, DOS 2.0/2.5 versions on one two-sided disk.. This is the best public domain word processor available. (MYDOS and SPARTA DOS versions also available.)

SPEEDCALC - \$5.00 (includes printed instructions)

A complete spreadsheet from Compute! Magazine. (March 1986)

DATABASES GALORE! - \$4.00 (two-sided)

A great two-sided disk containing a collection of DataBase programs for the Atari 8-Bit computer. The disk includes five complete DataBase programs, documentation files that can be printed-out with your word processor, on-disk help file, and the T.E.A.C. Utility Menu system.

BUDGET DATA BASE - \$5.00 (includes printed instructions)

A nice home budget keeping system with checkbook functions from Antic Magazine. (November 1986)

MASTER DISK DIRECTORY - \$5.00 (includes printed instructions)

This is a disk library data base that uses pull-down menus and a joystick from Analog Magazine. (December 1985)

MICROMAIL - \$5.00 (includes printed instructions)

An address keeping data file that prints both address labels and address lists from Analog Magazine. (March 1986)

WYSIWYG CASSETTE JACKET MAKER - \$5.00

The "What You See Is What You Get" Cassette Jacket Maker is a graphics program that prints labels for music cassette tapes. From Antic Magazine. (January 1988)

SIGN MAKER - \$5.00 (includes printed instructions)

Prints signs or flyers with a high degree of user control. Must be used on XL or XE, preferably on 130XE to use RAM disk. STAR SG-10 compatible.

T.E.A.C. MENU DISK - \$3.00

Would you believe a collection of over 18 autoloading menus for the Atari 8-Bit computer? You'll never have to search a disk again for a file, just make them automatically boot to a menu of your choice. Some of these autoloading menus also have many DOS features. Some automatically format and write themselves to a new disk. This collection comes complete with directions.

FLOPPY FILER and JACKET MAKER - \$3.00

A directory printing utility and a computer jacket-making program. From Antic and Compute! Magazines. (August 1986)

WORD SEARCH GENERATOR - \$3.00

Makes word searches. Atari and Epson printer versions available.

TRIVIA QUIZ SET - \$7.00 (three sides)

This two disk set includes the TRIVIA QUIZ MASTER DISK, the TRIVIA QUIZ DATABASE MAKER, and TRIVIA QUIZ DATABASE #1. This set allows you to make up your own Trivia questions on any subject you'd like. An excellent utility for the Teacher.

MATHEMATICS WORKSHEET GENERATOR - \$4.00

A Mendocino County School's program which will printout customized math worksheets in addition, subtraction, multiplication and division of whole numbers. Also produces answer keys. (two-sided disk)

TEACHER'S WORKSHOP - \$5.00 (includes printed instructions)

A complete grading system including printout and sorting functions. Classroom tested.

MULTIPLE CHOICE VOCABULARY QUIZ - \$5.00

Make your own multiple choice vocabulary quizzes for your Atari, includes limited print out functions. (includes printed instructions)

WORD WEAVER - \$5.00 (includes printed instructions)

This is a special word processor from Home Computing Journal that allows the writing of interactive fiction, family trees, identification guides and other branching-text applications.

850/1030 EXPRESS TELECOMMUNICATIONS TERMINAL - \$4.00

Our choice for telecommunications is EXPRESS. This program has all the features of the expensive commercial programs, is superior to most, but without the price. 1030 EXPRESS is for Atari modems, and 850 EXPRESS is for Hayes compatibles, etc. We'll send you both on a two-sided disk.

COMPACTORS, ETC. - \$3.00

You'll find many programs you can download on a modem are compacted to increase the speed they can be sent by wire. There are many systems for doing this: ARC, SHRINK, SCRUNCH, DISK COMMANDER, SQUISH, etc. You'll need to extract the programs once you get them, and we have the various programs to do it on autoload disks. We also have a program called DETECTOR which will tell you what type of program you have.

THE GENEALOGY DATABASE MANAGER AND FAMILY TREE ORGANIZER - 7.00

This FREEWARE database manager will allow you to organize and maintain genealogical data. It will print out personal histories, pedigree charts, and family groupings. This is a two-side disk that contains a nice collection of utilities on the backside. (includes printed instructions)

ATARI TOUCH TYPING - \$4.00 (two-sided)

This is a two-sided disk with Beginning, Intermediate, and Advanced typing drills. Begins with individual keys, then works into words, sentences, and paragraphs. Includes a typing game called Lazer Type.

BIBLIOGRAPHY WRITER - \$3.00

This is a neat program that will write a bibliography in correct format from data supplied by the student. It is an excellent way to teach students how a bibliography should look.

THE DRILL INSTRUCTOR - \$3.00

This is a vocabulary builder and spelling genie. It has three parts: A word list editor, a "mix em' up" type game, and a documentation reader and printout program. It's a slick package for the classroom. This can be helpful in all subject areas.

ATARIWRITER LESSONS DISK - \$5.00 (includes printed instructions)

This data disk has a collection of lessons designed to be used with the old AtariWriter cartridge word processor. It covers the fundamentals of word processing and could be up-graded for use with AtariWriter Plus, or any other similar word processor.

DOS 2.5 TUTOR AND MASTER DISK - \$4.00

DOS 2.5 is the newest disk operating system for the Atari 8-bit computer. It allows almost twice the data storage space on a disk, but requires a 1050 disk drive. The older 810 disk drive cannot run fast enough to use the DOS 2.5 format. For this reason, all TEACDISK programs are formatted in the older DOS 2.0 format so that they will operate on both disk drives. You can obtain a copy for the newer DOS 2.5 from us, but remember you need a 1050 disk drive to use it. This is a two-sided disk with an excellent tutorial.

TRANSLATOR XL AND XL FIX - \$4.00

Some programs originally written for the old ATARI 800 computers will not run on the newer ATARI XL and ATARI XE computers unless you use a TRANSLATOR DISK to load them. If you experience difficulties loading some programs, or if they freeze-up during operation, try loading them with a TRANSLATOR. Two-sided disk with a different translator on each side.

ANTIC SUPERCOPY - \$3.00

A multi-file copy program that makes duplicating files a snap. Great for moving selected student data files (or any other file) from disk to disk. Very easy to use.

T.E.A.C. PRINT SHOP GRAPHIC DISKS

These T.E.A.C. Graphic Disks are double-sided disks containing Public Domain graphics that can be used with Broderbund's PRINT SHOP. Each disk contains 140 new graphics not contained on any of the commercial Print Shop Graphic Libraries.

PRINT SHOP GRAPHIC DISK #1 and #2 - \$4.00
PRINT SHOP GRAPHIC DISK #3 and #4 - \$4.00
PRINT SHOP GRAPHIC DISK #5 and #6 - \$4.00
PRINT SHOP GRAPHIC DISK #7 and #8 - \$4.00
PRINT SHOP GRAPHIC DISK #9 and 10 - \$4.00
PRINT SHOP GRAPHIC DISK 11 and 12 - \$4.00
PRINT SHOP GRAPHIC DISK 13 and 14 - \$4.00

PRINT SHOP LABEL MAKER - \$5.00 (includes printed instructions)

This excellent program from ANTIC Magazine allows you to make labels using custom fonts and PRINT SHOP graphics. This is a must for those teachers using PRINT SHOP in the classroom. It comes with 33 custom fonts on the disk.

PRINT SHOP UTILITY DISK - \$3.00

Ever lose your page showing the graphics on a PRINT SHOP Graphics Library and wish you could print another one? Ever want to add or delete graphics from your Graphics disk? Ever want to transfer Print Shop graphics to a regular DOS file? This disk does it all, plus contains a completely new Print Shop drawing program called IconMaker that allows you to draw graphics using Joystick, Koalapad, or mouse.

TEXTPRO DATA DISKS - \$3.00 each.

These special data Disks work with the TEXTPRO word processor. They are complete teaching units that include both teacher's instructions and student worksheets. They were originally written for FrEdWriter. They are units on children's literature and writing.

Data Disk #1 - "SEA DEVIL" by Arthur Gordon. This short story first appeared originally in the April 11, 1953 issue of The Saturday Evening Post.

Data Disk #2 - Contains lessons in Haiku and Diamante poetry. Grades 6-8.

Data Disk #5 - "PECOS BILL AND LIGHTNING" by Leigh Peck and other tall tales. Grades 4-6.

Data Disk #7 - "CHARLOTTE'S WEB" by E.B. White. Although on the Fourth Grade reading list, most of these lessons can be used at any level for any novel.

MORE TEXTPRO DATA DISKS - \$4.00 each. (two-sided)

Data Disk #8 - "Programming Part I" Complete guide to BASIC programing. Two-sided.

Data Disk #9 - "Programming Part II" Second part of Part I. Two-sided.

Data Disk #10 - "TEXTPRO users guide" - two-sided documentation on use of TEXTPRO word processor.

Data Disk #11 - "INTRODUCTION TO COMPUTERS" - a complete Computer Literacy curriculum for both elementary and high school students written by TEAC member Michael E. Bennett. Includes lessons on LOGO and BASIC. (two-sided)

COMPUTER-AIDED TESTING SYSTEM - \$5.00

CATS includes an "objective" test making module for multiple choice, true/false, and fill-in type questions. Questions can be weighted differently and "hints" added. A nice feature is that it will give a printout of the test as well as a screen version. A second module administers the test and records the student's score to disk. The third module does an item analysis on class performance for teacher. (includes printed instructions)

PIXEL ARTIST DELUXE - \$3.00

A complete drawing and paint program with instructions on disk.

PAINT! - \$4.00 (two-sided)

The public domain version of MicroPainter Artist from Antic Magazine. Includes complete documentation on backside.

PQ QUESTION WRITER - \$3.00

This program will write new question disks for the popular "PQ - TheParty Quiz" game from Suncom. Allows up to 40 questions. It also allows you to edit existing question disks. The PQ controllers and program disk are necessary.

PUBLIC DOMAIN GAMES

No educational value and not classroom tested, but fun...

GAMEDISK #1 - \$3.00

Bankshot, Bats, Chicken, Doggies, Frog, Shooting Gallery,
Lunar Lander, Munchers, Slots, Time Trial, and Wildwest.

GAMEDISK #2 - \$3.00

Balloons, Super Barricade, Black Jack, Computer Cube, Gobbler, Grubs,
Lightning Robot, and Tiger.

GAMEDISK #3 - \$3.00

Bugs, Bull Ant, Cannibal, Diamond, Kong, Krazy Klimber, Missile,
Star Blaster Two, and Pharoah's Tomb.

GAMEDISK #4 - \$3.00

Warrior 3000, Blackbird, Hookey, Rock Slide, Solitaire, Tic Tac Toe,
Tee Off, and Treasure Hunt.

GAMEDISK #5 - \$3.00

Asylum, Castle Hexagon, Crickets, Depth Charge, Scrambled Eggs,
Egg Grab, Knight for A Day, Lander Seven, and Miami Ice.

GAMEDISK #6 - \$3.00

All-Star Baseball, Pegboard, Cliff Hanger, Bridge Builder, Hopper,
Kanga, Mine Field, Pro-Bowling, Quatro, Hostage Rescue, Simon,
and Box-In.

GAMEDISK #7 - \$3.00

Hunt the Wumpus, Smokey and the Bandit, Concentration, Magic Square,
and Lunar Lander.

GAMEDISK #8 - \$3.00

Myrapede, Money Hungrey, Fire Bug, Race In Space, Androton, Popcorn,
and Filler Up.

GAMEDISK #9 - \$3.00

StarWar, Egyptball, Lunar Defense, HiRise, Blast,
and Roundup.

GAMEDISK #10- \$3.00

Bacterion, Angeworm II, Solitaire, Franticball, Climber,
and Sub Attack.

GAMEDISK #11 - \$3.00

Troubleball, Spaceball, Galleons, Leaping Lizards,
Cosmic Glob and Star Dodger.

GAMEDISK #12 - \$3.00

Surround, Lone Eagle's Revenge, Monopoly, Marbles, Crystal
Caves, Tin Pan Alley Cats, Skull Chase, Speed Demon
and Drop.

GAMEDISK #13 - \$3.00

Fallout, Star Venture, Miniture Golf, Arena Racer,
Maze Rider, Gold Rush, Dark Star, Casino, Speedski,
Baseball and Karate.

GAMEDISK #14 - \$3.00

Blue Thunder, The Empire Strikes Back, Creepshow Pinball
Paddle Pong, and Upward.

GAMEDISK #15 - \$3.00

Gauntlet, Defense, Killer Chess, Frog, Rear Door,
and Labyrinths.

GAMEDISK #16 - \$3.00

Xagon, Bumper Pool, Hot Dice, Mengcop, Elevator Repairman
and Xevious.

GAMEDISK #17 - \$3.00

Cosmosball, Chiseller, Tricky Tracks, Tron, Troll War II,
and Rock Lander.

GAMEDISK #18 - \$3.00

MicroDungeon, Sleuth, Escape from Hades, Chess, Woodsman, Stuntman, Sorcerer, and Assault!

GAMEDISK #19 - \$3.00

Dusters, Harvey Wallbanger, RetroFire, Livewire, Brick Layer, Avalanche, Planetary Defense, Battle In The B-Ring, R.O.T.O., Cosmic Defender, Demon Birds, and Boulder Bombers.

GAMEDISK #20 - \$3.00

Bumper Pool Tournament, Sherlock, Current Events, Pro Golf Tour, Dateline Titanic, BlackJack, and Keno.

GAMEDISK #21 - \$3.00

Trial by Fire, Cloud Hopper, Moon Beam Arcade, Night Mission, Star Rider, Snow Plow, Dungeon Lord, and Stellar Arena.

GAMEDISK #22 - \$3.00

A trilogy of text adventure games including: "The Mansbie Quest," "The Caves of Madness," and "The Computer Solution."

TEAC ST LIBRARY

We feel that one of the reasons that our 8-bit library has been so successful is that our disks are extremely easy to run. We wanted to carry that same "user-friendly" format to our new TEAC ST Library. For that reason, we have placed all our ST disks on single-sided 3.5 disks. All model STs will be able to read them. We also wanted our programs to automatically autoloading, so this limits what we can place on an individual disk. Each TEAC ST DISK is complete and ready to run.

TEAC ST DISK #1 - PreSchool Kid Programs - \$4.00

Includes: KidGrid+, KidBlocks, KidKeys (requires a color monitor) Grades K - 2

TEAC ST DISK #2 - ST Coloring Book - \$4.00

Excellent computer coloring book (requires a color monitor) Grades K - 6

TEAC ST DISK #3 - Kid Potato - \$4.00

Dress the potato man, match or make (requires a color monitor) Grades K - 1

TEAC ST DISK #4 - Discovery - \$4.00

Excellent USA map program (requires a color monitor) Grades 4 - 12

TEAC ST DISK #5 - Wuzzlers - \$4.00

Word and picture puzzle game (requires a color monitor) Grades 2 - 4

TEAC ST DISK #6 - ST Writer V3.4 - \$4.00

Word Processor, includes spell checker (requires a color monitor) All grades

TEAC ST DISK #7 - Kid Publisher - \$4.00

Kids Desktop publishing (requires a color monitor) Grades 1 - 5

TEAC ST DISK #8 - Earth, Moon, and the Space Shuttle - \$4.00

Earth, Moon, and Space Shuttle, excellent graphics. (requires a color monitor) Grades 5 - 12

AIM ST DISKS OF THE MONTH

As an associate member of the Atari Interface Family of User Groups, we can offer copies of the AIM "Disk of the Month" collections. Each AIM disk costs \$6 each and contains a collection of self-extracting archived public domain programs for the ST. EACH DISK HAS A MIXED GRAB BAG OF PROGRAMS, DEMONSTRATIONS, GAMES, UTILITIES, ETC. When these programs are unarchieved, they will fill up several double-sides disks.

AIM Disk of the Month - November 1990 - (20 ARC FILES)

AIM Disk of the Month - December 1990 - (21 ARC FILES)

AIM Disk of the Month - January 1991 - (17 ARC FILES)

AIM Disk of the Month - February 1991 - (22 ARC FILES)

THE EDUCATORS' ATARI CLUB
P.O. Box 1024
Laytonville, California 95454

Thank you for your interest in The Educators' Atari Club. We are a small group consisting of students, parents and educators interested in developing the Atari as an educational tool. We formed in Mendocino County of California to exchange information and public domain programs with each other, and found the great majority of these programs to be unusable, unless the user had a background in programming and could de-bug the programs before using them. We felt that there is a great need, especially among educators, to find reliable programs to use in the classrooms.

Out of this need, we formed TEAC and now we are in the process of building a library of educational programs that are classroom tested before we release them. Because we feel that most classroom teachers are not programmers, before we add a program to our library, we test them in the classroom, rewrite them so that they work, improve them visually if necessary, and spend a great deal of time making sure they will not discourage the casual user when used. In short, we wish our programs to be user friendly.

TEACDISKS are programmed for Atari 8-bit computers and placed on DOS 2.0 disks with autorun menus. The decision to use the older DOS 2.0 operating system and the 8-bit format was based on the belief that most classroom teachers have a mixture of equipment in use, some of which is not compatible with newer DOS operating systems.

All TEACDISK programs are, to the best of our knowledge, public domain. Each program is tied into the TEACDISK menu and protected against examination or change by the casual user. However, whole disks can easily be copied using any sector copy program. We recommend making back-up copies and sharing these programs freely with others.

Another activity that is near and dear to us is helping Atari users learn more about their computer, and especially learn about the best buys in commercial educational software. We share information about these programs in our newsletter and at our meetings.

We welcome interested parties to join with us. Our yearly dues are presently \$15 and this places you on our mailing list, entitles you to purchase from our TEACDISK library (most disks cost \$5), and become a active member of our family. As a member, you will be asked to help us test various programs we are considering for our library, and make suggestions for us on how to improve them.

Any person having a program that they feel would fit into our collection is invited to submit it. Unlike other user groups, however, we cannot guarantee that we will add your program to our library until after it has been tested in the classroom and approved. If accepted, we will send you a copy of one of our disks, your program in its final form, and our thanks for letting us add it to our library.
